

My comments today have to do with the national radio service station called K-LOVE and the proposed rule changes giving priority to LPFM over FM radio broadcast stations.

First, I would like to point out the K-LOVE is an excellent family broadcasting station that serves the residents of Topeka, including me, on 90.9 FM. It provides excellent, positive and encouraging music everyday as well as uplifting and thought-provoking words of encouragement and news that is good and exciting every hour. This radio station greatly benefits the people of our community.

Secondly, I would like to say that without the positive and encouraging music and words that I and many other people in Topeka hear everyday on K-LOVE, we would be lost and would have lost a powerful and beautiful radio station. This station provides many people with hope and strength to make it through the day. It is like a breath of fresh air and a drink of cool, refreshing water.

Finally, I would encourage and implore you that K-LOVE is in the public interest for not only does it make our world a better place for those who listen, but it even makes the world a better place for those who do not listen. For when we listen to it, we are transformed by its powerful and truthful message to live good moral and godly lives and to reach out to those in our society who are less fortunate or maybe just plain having a bad day and affect them with love and kindness and to perhaps see lives changed for the better.

I would like to thank you for reading my comment and your consideration of these words, and I urge you once again, please keep K-LOVE on the air for the good of local communities like Topeka and the good of the nation as a whole.
